

CablePro Mat – MP

Protect cables, reduce trip risks and maintain grip in demanding industrial environments

- Heavy-duty rubber cable protection mat designed for industrial and commercial use.
- Integrated cable channel secures and protects loose cables from foot traffic and light equipment.
- Textured rubber surface improves traction on slippery or high-risk floors.
- High-visibility hazard borders increase awareness and help reduce trip incidents.
- 8 mm low-profile design balances robust cable protection with safe pedestrian access.
- Durable rubber compound withstands demanding indoor and outdoor environments.
- Easy to lay, reposition and clean for flexible, changing workspaces.
- Helps extend cable lifespan by reducing wear and damage.
- Suitable for factories, warehouses, construction sites and EV charging areas.

Parts

Part Number	Size	Colour	Weight (kg)
CPM010002C	0.3 m x per linear metre	Black/Yellow	1.95
CPM010002	0.3 m x 10 m	Black/Yellow	19.5
CPM010001	0.3 m x 1.0 m	Black/Yellow	1.95

Technical Specifications

Material	Rubber
Product Height	8 mm
Environmental Resistance	Suitable for indoor and outdoor environments
Typical Applications	Suitable for factories, warehouses, construction sites and EV charging areas
Installation Method	Loose lay
Cleaning Method	Carpet clean, vacuum clean or steam clean
