
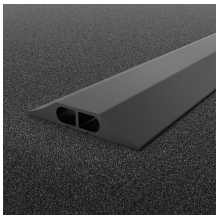
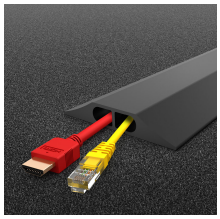
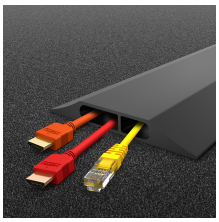
CablePro Data

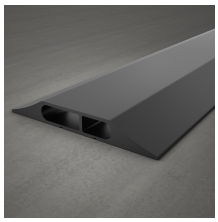
Protect data cables, reduce trip hazards

- Ideal for keeping multiple cable types separated.
- Reduce trip hazards caused by trailing cables.
- Protect cables and wires from being pulled and causing costly damage to equipment.
- Tapered edges to reduce trip hazards.
- For inside and outside use.
- Ideal for offices, warehouses, events, shows and exhibitions.
- Features a pre-cut slit on the reverse to make inserting cables easy.
- Data 1 has two ducts of the same size.
- Data 2 has two ducts, one medium-sized and one larger. The cable protector is larger than Data 1 to allow more cables.









Styles Available
