

Heel Grounder

Conducts harmful static for operator safety

- Designed to ground the operator when used on suitable conductive or dissipative flooring.
- Hardwearing, long-lasting rubber construction suits all shoe sizes and shapes.
- Fully adjustable, lightweight design.
- Conductive tab ensures reliable and effective skin contact.
- Two grounders recommended at all times for complete ESD safety.
- Fitted with a 1 meg Ω resistor for operator safety.

Parts

Part Number	Size	Colour	Weight (kg)
HR000008	One size	Black	0.05

Technical Specifications

Material	Plastic parts made of antistatic PA material
Environmental Resistance	Suitable for dry indoor environments
